

## Hexstone

### Coronavirus (Covid-19) Update

In line with government advice, Hexstone is continuing to operate to provide supplies to our customers who, in turn, are supporting critical maintenance, manufacturing and construction activities.

Where possible our office staff are working from home. Where staff cannot work from home, we are following social distancing guidelines on our sites. Our sites are closed to visitors.

We ask customers, as far as possible, to contact us and place orders by e-mail or through [www.ojtrade.co.uk](http://www.ojtrade.co.uk). Placing orders as early as possible in the day will assist us in ensuring service levels are maintained.

If you do not have a login for OJ Trade please contact your sales office or representative who will be able to help.

We are monitoring this evolving situation on a daily basis and will update our approach as necessary.
